

Volume 10, Number 1

February, 2017

ISSN 1983-4195

### Contents

**Economic viability of ultra high-performance fiber reinforced concrete in prestressed concrete wind towers to support a 5 MW turbine**

P. V. C. N. GAMA and T. N. BITTENCOURT

**Influence of coarse aggregate on shear resistance of self-consolidating concrete beams**

G. SAVARIS and R. C. A. PINTO

**Numerical analysis of nonlinear behavior of steel concrete composite structures**

Í. J. M. LEMES, A. R. D. SILVA, R. A. M. SILVEIRA, P. A. S. ROCHA

**Tools for assessing damage in concrete affected by AAR coming from fine and coarse aggregates**

L. F. M. SANCHEZ, B. FOURNIER, M. JOLIN, J. BASTIEN and D. MITCHELL

**Cement blocks with EVA waste for extensive modular green roof: contribution of components in thermal insulation**

A. B. de MELO and T. N. M. MENDONÇA

**Adherence between steel bars and lightweight concrete with EPS beads**

A. L. SARTORI, L. M. PINHEIRO, R. M. DA SILVA, S. B. FREITAS and T. G. CESAR

**Experimental analysis of the concrete contribution to shear strength beams without shear reinforcement**

M. S. SAMORA, A. C. DOS SANTOS, L. M. TRAUTWEIN and M. G. MARQUES

**Skew decks in reinforced concrete bridges**

B. F. ROCHA and M. SCHULZ

**Intumescent paint as fire protection coating**

R. B. R. S. OLIVEIRA, A. L. MORENO JUNIOR and L. C. M. VIEIRA

**Influence of standard recommendations for the calculation of the column-base connection by socket according to ABNT NBR 9062:2006**

R. PIERALISI and R. D. MACHADO
