

Volume 11, Number 5

October, 2018

ISSN 1983-4195

**Reliability of internal column-slab connection under punching according to NBR 6118:2014**

G. R. SILVA, A. CAMPOS FILHO and M. V. REAL

**Hardening phenomenon of Portland cement suspensions monitored by vicat test, isothermal calorimetry and oscillatory rheometry**

R. C. O. ROMANO, M. A. CINCOTTO and R. G. PILEGGI

**Crestbond shear connectors for load transfer in concrete filled tube columns**

O. P. AGUIAR, R. B. CALDAS, F. C. RODRIGUES, R. H. FAKURY and G. S. VERÍSSIMO

**Reinforced concrete ribbed slabs with wide-beam**

P. V. P. SACRAMENTO, M. S. PICANÇO and D. R. C. OLIVEIRA

**Design of reinforced concrete beams with steel fibers in the ultimate limit state**

T. E. T. BUTTIGNOL, J. F. FERNANDES, T. N. BITTENCOURT and J. L. A. O. SOUSA

**Numerical and experimental assessment of a typical brazilian footbridge**

G. N. DOZ, J. L. V. BRITO and A. BRASILIANO

**Experimental study on the interference intensity produced by the presence of neighboring buildings in the wind action in a tall building**

G. S. VIEIRA, J. L. V. DE BRITO and A. M. LOREDO-SOUZA

**Evaluation of the SR Portland cement against sodium and magnesium sulfate attack: a physical and comparative analysis of mortars**

D. J. de SOUZA, M. H. F. MEDEIROS and J. HOPPE FILHO

**Analysis of the effects of soil-structure interaction in reinforced concrete wall buildings on shallow foundation**

M. G. C. SANTOS and M. R. S. CORRÊA

**Punching shear in concrete reinforced flat slabs with steel fibers and shear reinforcement**

T. H. MUSSE, L. M. TRAUTWEIN, R. B. GOMES, E. A. P. LIBERATI and G. N. GUIMARÃES

**Analysis of the influence of column reinforcement anchorage length in a concrete two-pile cap**

R. P. RANDI, L. C. ALMEIDA, L. M. TRAUTWEIN and F. S. MUNHOZ

**Best practices for pervious concrete mix design and laboratory tests**

F. B. P. COSTA, A. LORENZI, L. HASELBACH and L. C. P. SILVA FILHO
