IBRACON STRUCTURES AND MATERIALS JOURNAL

Volume 11, Number 6

December, 2018

ISSN 1983-4195

Evaluation of mechanical damage in concrete subjected to uniaxial compression and tensile by diametrical compression with longitudinal and transverse ultrasonic waves
A. V. P. ARAUJO, F. A. N. SILVA, C. L. NOGUEIRA and J. A. SILVA

Hydraulic binder obtained from recycled cement and sand powder
R. M. R. O. MENEZES, R. M. DA SILVA, E. P. FIGUEIREDO, A. C. DA SILVA BEZERRA, M. T. P. AGUILAR and P. R. CETLIN

Assessment of the pozzolanic activity of ornamental stone waste after heat treatment and its effect on the mechanical properties of concretes
S. H. M. MITTRI, M. K. DEGEN, G. L. VIEIRA, J. S. VAZZOLER and L. H. C. H. RODRIGUES

Analysis of the nodal stresses in pile caps
M. A. TOMAZ, R. G. DELALIBERA, J. S. GIONGO and V. F. GONÇALVES

Reinforcement design of concrete sections based on the arc-length method
Analysis of the nodal stresses in pile caps
J. N. KABENJABU and M. SCHULZ

Contribution to the rheological study of cementitious pastes with addition of residues from the processing of ornamental rocks
V. Y. SATO, A. P. L. GALINA and J. E. S. L. TEIXEIRA

Analysis of the assessment methods of reinforced concrete beams in fire conditions proposed by NBR 15200
F. L. BOLINA, B. BAQUES, B. F. TUTIKIAN and J. P. C. RODRIGUES

Experimental evaluation of coupler behavior for mechanical rebar splices in reinforced concrete structures
V. G. CHIARI and A. L. MORENO JUNIOR

Selection of low impact concrete mixtures based on life-cycle assessment mixtures
M. G. SILVA, V. GOMES and M. R. M. SAADE

Simulation of interface behavior between FRP bars and concrete by an elastic-plastic theory via FEM
D. S. BRISOTTO, E. BITTENCOURT and V. M. R. D. BESSA

Study of modal analysis based on fluid-structure interaction
M. PEGORARO, F. A. A. GOMES and P. R. NOVAK

Analysis of the efficiency of strengthening design models for reinforced concrete columns
P. C. RODRIGUES and D. L. ARAÚJO
