Contents

Evaluation of mechanical damage in concrete subjected to uniaxial compression and tensile by diametrical compression with longitudinal and transverse ultrasonic waves

A. V. P. ARAUJO, F. A. N. SILVA, C. L. NOGUEIRA and J. A. SILVA

1160

Hydraulic binder obtained from recycled cement and sand powder

R. M. R. O. MENEZES, R. M. DA SILVA, E. P. FIGUEIREDO, A. C. DA SILVA BEZERRA, M. T. P. AGUILAR and P. R. CETLIN

1178

Assessment of the pozzolanic activity of ornamental stone waste after heat treatment and its effect on the mechanical properties of concretes

S. H. M. MITTRI, M. K. DEGEN, G. L. VIEIRA, J. S. VAZZOLER and L. H. C. H. RODRIGUES

1186

Analysis of the nodal stresses in pile caps

M. A. TOMAZ, R. G. DELALIBERA, J. S. GIONGO and V. F. GONÇALVES

1208

Reinforcement design of concrete sections based on the arc-length method analysis of the nodal stresses in pile caps

J. N. KABENJABU and M. SCHULZ

1258

Contribution to the rheological study of cementitious pastes with addition of residues from the processing of ornamental rocks

V. Y. SATO, A. P. L. GALINA and J. E. S. L. TEIXEIRA

1284

Analysis of the assessment methods of reinforced concrete beams in fire conditions proposed by NBR 15200

F. L. BOLINA, B. BAQUES, B. F. TUTIKIAN and J. P. C. RODRIGUES

1308

Experimental evaluation of coupler behavior for mechanical rebar splices in reinforced concrete structures

V. G. CHIARI and A. L. MORENO JUNIOR

1326

Selection of low impact concrete mixtures based on life-cycle assessment mixtures

M. G. SILVA, V. GOMES and M. R. M. SAADE

1354

Simulation of interface behavior between FRP bars and concrete by an elastic-plastic theory via FEM

D. S. BRISOTTO, E. BITTENCOURT and V. M. R. D. BESSA

1381

Study of modal analysis based on fluid-structure interaction

M. PEGORARO, F. A. A. GOMES and P. R. NOVAK

1391

Analysis of the efficiency of strengthening design models for reinforced concrete columns

P. C. RODRIGUES and D. L. ARAÚJO

1418

ERRATA - RIEM Vol. 11 - nº 5 - artigo 3

Crestbond shear connectors for load transfer in concrete filled tube columns

O. P. AGUIAR, R. B. CALDAS, C. RODRIGUES, R. H. FAKURY and G. S. VERÍSSIMO

1453
