Contents

Global stability of buildings' structural systems considering beam-wall connections

C. W. S. DINIZ, E. N. LAGES and A. S. R. BARBOZA

Flexural behavior of hybrid GFRP – concrete railway sleepers

A. C. L. de AZEVEDO, A. M. A. J. TEXEIRA and L. A. V. CARNEIRO

Experimental study of concrete mixtures to produce UHPRC using sustainable brazilian materials

R. R. AGUERO, C. KORZENOWSKI, J. R. Y. AGUIRRE, A. CAMPOS FILHO, L. C. P. da SILVA FILHO and C. S. MALLMANN

Statistical analysis of mechanical properties of mortars with fly ash and waste tire rubber

A. PCZIECZEK, C. EFFTING, I. R. GOMES, A. SCHACKOW and E. HENNING

Reinforced concrete corbels strengthened with external prestressing

R. M. ROMANICHEN and R. A. SOUZA

Design of deep pile caps by strut-and-tie models

D. M. SANTOS, M. L. CARVALHO and F. R. STUCCHI

Interaction dam-reservoir: study of conservative and dissipative effects

S. F. da SILVA and L. J. PEDROSO

Study of the compressive and tensile strengths of self-compacting concrete with sugarcane bagasse ash

R. G. D. MOLIN FILHO, D. A. LONGHI, R. C. T. de SOUZA, R. D. VANDERLEI, P. R. PARAÍSO and L. M. de M. JORGE

Concrete block structural masonry beam shear design: theoretical and experimental analysis and recommendations to the brazilian standards

R. D. PASQUANTONIO, G. A. PARSEKIAN and J. S. CAMACHO

Optimization of reinforced concrete beams using Solver tool

R. S. CORREIA, G. F. F. BONO and G. BONO

Computational algorithm for the verification of reinforced concrete sections in fire situation

E. P. G. PADRE, J. C. L. RIBEIRO, R. C. S. S. ALVARENGA and R. C. SILVA

Case study: influence of performance levels of ABNT NBR 15575 without consumption of materials used in reinforced concrete structures

F. S. CUNHA, K. A. L. COLLA, H. EHRENBRING, F. L. BOLINA and B. TUTIKIAN
