

Volume 13, Number 1

February 2020

ISSN: 1983-4195

Contents

<i>Effect of the addition of metakaolin on the carbonation of Portland cement concretes</i> B. S. SANTOS, D. D. M. ALBUQUERQUE and D. V. RIBEIRO	1
<i>Empirical method for structural damage location using dynamic analysis</i> R. L. SILVA, L. M. TRAUTWEIN, C. S. BARBOSA, L. C. ALMEIDA and G. H. SIQUEIRA	19
<i>Thermal properties of polypropylene and high modulus polyethylene fibers reinforced concretes</i> J. C. AMARAL JR ^{AND} W. G. MORAVIA	32
<i>Modal identification of Bridge 44 of the Carajás Railroad and numerical modeling using the finite element method</i> M. S. SILVA and F. A. NEVES	39
<i>Statistical analysis of the design procedure used in reinforced concrete pipes</i> F. M. FLORESTA, C. S. VIEIRA, L. A. MENDES and D. L. N. F. AMORIM	69
<i>Study on concrete through its hardened state properties</i> A. MONTELONGO, F. PACHECO, R. CHRIST and B. F. TUTIKIAN	87
<i>Numerical analysis of the effective stiffness of elastomeric bearing pads under precast beams for the limit load of lateral instability</i> L. C. REIS, P. A. KRAHL and M. C. V. LIMA	95
<i>New design model of reinforced concrete beams in bending considering the ductility factor</i> C. G. NOGUEIRA and I. D. RODRIGUES	120
<i>Physical-mechanical potential properties of wastes from glass lapping to produce mortar as partial replacement of the conventional aggregate</i> U. G. RIBEIRO and D. F. SANTOS	142
<i>Concrete beam subjected to shear and torsion: a comparison between the Brazilian Standard Code ABNT NBR 6118: 2014, ACI 318/2014 and AASHTO Provisions</i> R. C. DE ANDRADE and T. N. BITTENCOURT	160
<i>Elastoplastic constitutive modeling for concrete: a theoretical and computational approach</i> D. B. OLIVEIRA, S. S. PENNA and R. L. S. PITANGUEIRA	171
<i>Analysis of the global tall buildings stability in flat slabs considering the soil structure interaction</i> E. C. ALVES and L. A. FEITOSA	183
